fingerprint

Where Our IP Address Is Shared

Consider these common places we interact online.

Every time we click something online, it's like signing a guestbook and your IP address is the signature you leave behind.

# Who wants your IP address?

**Authorities** to piece together illegal activities.

**Advertisers** to target you with relevant products and services.

**Employers** to understand where you're spending time online at work.

**Cybercriminals** and hackers to install malware or commit Denial of Service attacks.
